REV. FATHER MULLER, of Mangalore, India, is meeting with great success in the treating of leprosy by means of the electro-homeopathic system cure.

A STUBBORN (Mo.) man, who cut his foot with an axe years ago, has never chopped wood since without standing in a better fix to protect his pedal extremities.

J. O. HANSTON has a machine of his own invention at work in his Astoria cannery that washes 30,000 cans in ten hours. The best record of the old machine was 12,000.

TURKEY is a wild flower in Turkey that is the exact floral image of a humming bird. The flower is green, the wings are a deep rose color, the throat yellow, the head and back almost black.

ENGINE WRECKED.

The Engineer's Remains Gathered Up and Placed in a Bucket.

The Fireman Killed and the Messenger Injured—An Express Train Dashed Into a Landslide. The Passengers, by a Miracle, Escape Without Injury.

CUMBERLAND, Md., May 28.—Sunday morning about 3 o'clock one of the most disastrous wrecks known in the history of the Baltimore & Ohio Railroad Co. occurred near Pine Grove, two and one-half miles east of Rockwood, Pa., on the Pittsburgh division of that road.

The ill-fated train was the New York and Pittsburgh express, which left this place at 1:30 o'clock Sunday morning, with two regular express cars, a combination express and mail car and several day coaches. The coaches were well filled with passengers, and the train was running at the rate of sixty miles an hour.

Suddenly, without a moment's warning, the engine dashed into a large landslide, sending the engine and several day coaches, which were fortunate enough to escape, to the bottom of the slide. The combination mail and express cars crashed into the engine with terrible force, and in a few minutes were on fire. The coaches, with their precious burden of passengers, were jammed together, but did not leave the track, to which fortunate occurrence is due that none of the passengers were injured.

As soon as the train quieted the passengers rushed to the piled up and burning express cars, where they found Messenger Stahl, of the United States Express Co., struggling to escape from his car. In a moment he was rescued, but not until he had received injuries about the head and body, and probably internally, but it is thought he will recover.

The passengers then turned their attention to the derailed engine below in the creek, and were horrified to find no signs of the engine or its fireman. For five long, weary hours they continued their search, until at last they found the crushed and dead body of Fireman Rihnhart under the locomotive. One of his feet was entirely burned off. Continuing their search they came across bits of the remains of the unfortunate engineer, Nicholson. These they gathered up and placed in a bucket, the rest of his body having been entirely consumed by fire.

Messenger Stahl was taken to Baltimore, where he lives, Sunday afternoon. The remains of Engineer Nicholson and Fireman Rihnhart were taken to Glenwood, Pa., where they leave families.

A PRACTICAL PREACHER.

Rev. Dr. John L. Seader Provides a Church Cheekroom for Bicycles.

NEW YORK, May 28.—"The Bicycle and the Church" was the theme of Rev. Dr. John L. Seader's sermon Sunday night at the Jersey City tabernacle. He said:

"The bicycle mania is spreading and we rejoice in it. Now, in my judgment, it is better to adapt ourselves to existing conditions than to indulge in useless denunciations. If men and women will ride on Sunday, why not invite them to ride to church and provide a place for their machines? I am happy to announce that in this tabernacle arrangements have been made to check the wheels of all those who make the bicycle a church-going machine. While we do not encourage Sunday riding, we certainly invite those who use wheels on Sunday to ride this way and enjoy the service of this sanctuary. This age has no use for platitudinarians in the pulpit. Sunday sanctification is here, whether we like it or not, we must meet it."

IN A BAD WAY.

Many Men, Lungs, Factories Close and Water Works Out of Control.

ST. LOUIS, May 28.—This city is confronted with a fuel famine. For three days there has been no sound of coal delivered in this city or in East St. Louis from any source. Last week three eastern roads delivered about thirty cars of coal from Pennsylvania under iron clad contracts with large consumers. This coal was guarded to its destination as carefully as if it was gold dust. For a month no coal has arrived from the Illinois mines that supplied the general needs of the city. Not a day passes but one or more factories close. The street car companies are preparing to use horse power, while several factories have put in oil burners and others are using wood, which has also advanced to almost prohibitive prices. Water Commissioner Holman announces that he has but five days' supply of coal, and has arranged oil burners for the high water pumps.

ON THAT LITTLE SUMMER.

DENVER, Col., May 28.—The commonwealth in camp here number 700. They declare they will lie here all summer if there is no cheap rates east. They declare they will not leave a train. Railway officials are suspicious of them and maintain guards constantly in the railway yards.

A RISE IN THE MISSOURI RIVER.

ATMONTON, Kan., May 28.—During the past few hours, ending at 3 o'clock Sunday evening, the Missouri river has risen nearly 6 feet. The rise was rather sudden, and great damage is being done to property in the vicinity of East Atchison.

Bull Ring Tragedy.

MADRID, May 28.—At the end of a bull fight here a matador, Espartaco, was about to plunge his sword into the neck of the bull, when the brute made an unexpected movement, threw him down and gored him. Espartaco died a few moments later. He had a national reputation as a bull fighter.

England Will Meditate.

LONDON, May 28.—It is announced that Brazil has accepted the mediation of England in her dispute with Portugal.

Gladiators Confronted.

LONDON, May 28.—A bulletin issued early Saturday in regard to the health of Mr. Gladstone, says that he is making excellent progress towards complete recovery.

Assassinate Boings.

PARIS, May 28.—Since the arrest of the three anarchists, Gavrin, Heaulen and Gauch, the police have discovered that the latter had planned to assassinate Gladstone. Gauch is also shown to have been the accomplice of Matha and Feneon in the late St. Etienne explosion.

CONFERENCE.

Settlement of the Strike Rests With the Illinois Operators—That is What President McBride, of the Mine Workers, Says.

SPRINGFIELD, Ill., May 29.—The conference of operators and representatives of the miners Monday afternoon did not start off well. Southern Illinois was well represented, and a few are present from this section.

President Crawford, of the Illinois State association, was elected chairman by acclamation, the operators taking no part in the proceedings.

President McBride then addressed the assembly. "For years Central and Southern Illinois," he said, "had been a drawback to the settlement of mining difficulties. Whenever an interstate movement had been undertaken the operators of Northern Illinois had been hampered by the lack of agreement on the part of those of the southern and central fields. Whenever the northern operators would enter into an agreement with their miners the central and southern field operators would get a large amount of their trade. In the present international fight the operators of the central and southern part of the state stood in the way of an agreement from one end of the country to another."

Continuing, Mr. McBride said he wanted to meet the operators and discuss the matter in the hope that harmonious action might be secured.

Operator Tracey, of Springfield, said he was sorry the scale was not to be considered. The operators had no grievance.

"We don't know what is the matter," said Mr. Tracey. "What do you want? We are willing to do what is reasonable, but we want to know what you want. The Consolidated Coal Co., owning eighty-three mines, and mining 3,000,000 tons annually, is not here, and Charles Ridgely, the president, told me he would not be bound by the acts of this meeting. 'Pass has been paying twenty-nine cents per ton to me. We can not compete with that. If Mr. McBride will say the word,' concluded Mr. Tracey. 'I will put 500 men to work Tuesday.'"

Ex-Representative Thomas Spellman, of Danville, who styled himself as a small miner, spoke in favor of the settlement of the strike on local lines, asking the executive board U. M. W. A. to make an effort in that direction. He denied that the operators of central and southern Illinois were to blame for the trouble. In his opinion the Ohio operators were as much to blame.

After further discussion, Norton, of Canton, offered the following, which was adopted:

Resolved, That the operators here assembled respectfully invite all the operators of the state to send a general conference to consider the Illinois scale of wages, the meeting to be held Thursday, at 10 a. m., at the state house.

Resolved, further, That those interests in Southern and Central Illinois not represented here to-day be invited, and there be a special committee of three appointed by the chairman of this meeting to see that the invitations are properly distributed.

Spellman asked if at the meeting a settlement was made and a scale agreed upon, the miners in Illinois would be allowed to go to work.

"I will say to you," replied McBride, "that if a satisfactory agreement is reached and a scale signed at this meeting, the board will say go to work, because that will bring the operators of other fields to terms."

MOVING ON THE WORKS.

Steamboat Load of Turned Workmen Coming Down the River.

POMEROY, O., May 29.—At 8 a. m. Monday a steamboat load of miners from the towns above here passed down on their move on Senator Camden's works at Spillman, W. Va. They will be followed by land forces. They expect to face the West Virginia militia there. The miners are not armed and expect to accomplish their purpose by persuasion. With this mine shut down the Cincinnati and Pomeroys packets will have to go to the lake, and there is no other place to get coal. The miners propose to camp at the mouth of the mine until the work is shut down.

PARKERSBURG, W. Va., May 29.—Hard-work men here have been telegraphed to from the Camden mines on the Ohio River railroad for coal has arrived from the Illinois mines that supplied the general needs of the city. Not a day passes but one or more factories close. The street car companies are preparing to use horse power, while several factories have put in oil burners and others are using wood, which has also advanced to almost prohibitive prices. Water Commissioner Holman announces that he has but five days' supply of coal, and has arranged oil burners for the high water pumps.

AN ENGLISH SYNDICATE'S OFFER.

CINCINNATI, May 29.—Stockholders of the Elgin National Watch Co. have under advisement the acceptance of an offer by a British syndicate to purchase their entire holdings, including the issue of the corporation bonds. The syndicate's offer is to pay \$2.00 a share and purchase the \$1,000,000 issue of bonds. As there are 4,000 shares of stock the sale would mean the transfer of \$8,000,000 of British currency to the 150 stockholders.

BANK WRECKERS CONVICTED.

INDIANAPOLIS, Ind., May 29.—In the Indianapolis National bank case the jury found Frank and Percival Coffin guilty as charged in all of the indictments. The courtroom was packed when the verdict was returned. A motion for a new trial will be heard Monday morning. Meantime the defendants were given opportunity to furnish bond—Read for \$5,000, Percival Coffin for \$12,500 and Frank Coffin for \$25,000.

TOM MOORE'S BIRTHDAY.

CHICAGO, May 29.—Monday was the 115th anniversary of the birth of Thos. Moore, Ireland's national poet, and it was appropriately celebrated by scores of societies composed of patriotic Irishmen and women throughout the country.

BENNETT'S DIVISION DISBANDED.

HIAWATHA, Kan., May 29.—Bennett's division of the Industrial army disbanded here Monday. Most of the 'weavers' expect to join Sanders' army at Leavenworth, and many left on Monday's train.

A PHILADELPHIA NONGERMANIAN.

PHILADELPHIA, May 29.—Hon. Frederick Frey, who has for over a decade occupied the position of president of the National board of trade, and who is also president of the Philadelphia board of trade, celebrated his ninetieth birthday Monday.

RAILWAY SHOPS SHUT DOWN.

ST. LOUIS, May 29.—The Missouri Pacific shops at this place, employing between two hundred and three hundred men, were shut down Monday on account of the scarcity of coal.

THE SITUATION.

About 175,000 Miners Idle and 11,000 at Work.

Yast Business Interests in Many States Are Seriously Crippled—Within a Week the Stock of Bituminous Coal Will Likely Be Gone.

NEW YORK, May 28.—The Sun Monday morning lead several columns of special dispatches from all the states and territories where the miners' strike with this introduction:

"The great bituminous coal strike which began on April 21 has reached that stage where vast business interests in many states are crippled seriously. Fully 175,000 miners are idle in fourteen states and two territories. About 15,000 miners are at work.

"Not only have the miners begun to suffer privation, provoking them to riot in several states, chiefly Illinois, Pennsylvania and Alabama, but railroads, mills and even office buildings, have been so affected that thousands of other men are without work, and the business world, especially in the central west, sees before it an immediate struggle for existence. Within a week the stock of bituminous coal on hand will probably be exhausted.

"It is doubtful if this country ever experienced so large and so important a strike. If not settled soon its effects must be far reaching, as the Sun's dispatches Sunday morning show. Already the earnings of the railroads, notably in Pennsylvania, have been reduced most seriously, and soon the carrying capacity of the roads will be impaired. The miners will not yield, they say, until a uniform rate of seventy-five cents a ton is established throughout the country. Many, and perhaps a majority of the operators, are willing to give this, but they have not been able to come to such an agreement, and another conference is to be held in Springfield, Ill., Monday. Little is expected there."

Illinois and Alabama have been of such a character that state troops have been ordered out, and are in active service. Gov. Pattison, of Pennsylvania, has addressed the mass meeting at one place and cautioned them against violence, so that he will not feel it necessary to order out the troops. The spirit of riot seems to be abating, but fear of serious trouble has not been dispelled."

SPRINGFIELD, Ill., May 28.—National President John McBride, State President J. A. Crawford and Mr. Fahr, all of whom are members of the national executive board of mine workers, are in the city ready for the conference called for Monday to endeavor to arrange a settlement of the big strike.

President McBride Sunday evening said that there are about 175,000 men engaged in the strike in the bituminous coal fields of the country, and from the best information that can be obtained there are about 11,000 men at work. 1,000 of whom are in Illinois. The states involved are Maryland, Pennsylvania, West Virginia, Ohio, Indiana, Tennessee, Kentucky, Alabama, Illinois, Iowa, Missouri, Kansas, Colorado, Indian Territory and parts of New Mexico and Arkansas.

PHYSICIANS AND SURGEONS.

The Triennial Congress About to Begin in Washington.

WASHINGTON, May 29.—The present week will witness a noticeable gathering of medical men in this city, drawn here for the purpose of attending the triennial congress of American physicians and surgeons. The sessions of the congress will be held in Metzerott hall on May 29, 30, 31 and June 1. The formal programme of the meetings of the congress together with those of the fourteen individual component associations which will meet here at the same time has been issued. These individual bodies will meet in the forenoon, while the congress proper will assemble in the afternoon of the days mentioned. Tuesday the congress will be opened by the chairman of the executive committee, Dr. Langdon C. Gray, of New York. The session that afternoon will be under the direction of the American Association of Anatomists, the subject for discussion being "Morphology as a Factor in the Study of Disease." On Wednesday the subject for discussion will be "Sewer Gas," under the direction of the American Climatological association and "The Distribution and Control of Leprosy in North America," under the direction of the American Dermatological association. The Society of Genito-urinary Surgeons and the American Gynecological society will control the time of Thursday's meeting and on Friday after the session matters of interest to the Laryngological association and the Neurological association will be discussed.

TO BE PUNISHED.

OTTAWA, Ont., May 29.—Maj. Gen. Herbert, commander-in-chief of the militia, was Monday instructed by the minister of militia to instruct the deputy adjutant general of St. Thomas district to use all means in his power to find the names of the Queen's Own Rifles, of Toronto, who were taken down the United States flag at St. Thomas. An official communication has been sent by Gen. Herbert to Lieut. Col. Hamilton, of the Queen's Own, to do his best to assist in detecting the culprits. Word has been received here that two of the suspected men are members of aristocratic families, one being a son of an alderman of Toronto.

TRUCKS TORN UP.

STANTON, Ill., May 29.—The striking miners employed by the Madison Coal Co., on learning that slack was being shipped to St. Louis, took to their own devices, which connects with the Clover Leaf road, tore up the tracks Monday night, broke switches, pushed empty cars down the grade and tore up the company's system of piping used to fill the water tanks from a spring. Now the strikers intend to prevent the company mining coal for the Wabash railroad trains. H. Prange & Sons' flouring mill at New Douglas has been forced to close on account of the coal famine.

CHINAMEN FOR MEXICO.

MONTREAL, Ala., May 29.—A distinguished Chinaman, named Kim Wing, has reached Mobile, Ala., en route from his home in Merida, Mex., to Hong Kong, China, where he goes to get 300,000 of his countrymen to settle in Mexico. Wing is a wealthy merchant of Merida and is a highly educated man. It has been with great difficulty that he has persuaded the Mexican government to permit him to bring so large a number of his countrymen over at one time. They are to be employed on coffee and bean plantations which are to be operated by Wing.

THE TARIFF BILL.

Speculation Rife in Washington as to Its Fate—The Date When the Final Vote on Its Passage Will Be Taken.

WASHINGTON, May 29.—Speculation as to the fate of the tariff bill is now concerned, first, with the fate of the sugar schedule, and then with the date when the final vote upon the passage of the bill is likely to be taken. The week opens with very different opinion as to the result of various amendments which will be offered to the sugar schedule.

The reason why the discussion of the sugar schedule is so important is not merely because of its probable sensational character, but because any radical change in that schedule, such as the restoration of bounty on domestic raw sugar, or the admission of foreign raw sugar free of duty, would mean almost the certain defeat of the entire bill. To accomplish this purpose republican leaders in the senate will devote all their energies during the coming week. If they fail it will be because they do not command the entire strength of their party.

Senator Sherman intends to open the debate upon the sugar schedule, which he will do as soon as the schedule of wool and manufactures of wool is finished.

Opinions differ very radically among even republican senators as to when a final vote upon the bill will be taken. Estimates now given by such democratic senators as Brice, Faulkner, Jones and Voorhees range from the 15th to the 20th of June. Some western republicans, especially the silver republicans, such as Dubois and Shoup, of Idaho; Teller, of Colorado, and Jones, of Nevada, agree in general with these democratic estimates, although none of them will go so far as to pin their judgment to any positive date.

Other republican senators do not believe that a vote can be reached before July. Senator Higgins, of Delaware, said Monday that he could not see how a vote could possibly be reached, even without any delay whatever, at the latest date fixed by democrats, June 30.

Shortly after Senator Walsh took the floor Monday to speak on the tariff question, Senators Hale, Aldrich, Lodge and a few other republicans met in the committee room of Mr. Hale for the purpose of discussing the situation and considering the advisability of calling a caucus within the next few days for a party discussion of the line of campaign to be pursued in the debate and final action on the sugar schedule. The republicans believe they have it in their power to control the senate on this matter.

After a proposition to maintain the present bounty is voted down, as it undoubtedly will be, the minority will, according to their present programme, move to put sugar on the free list. In this they expect to have the assistance of a few democrats and at least one of the populists. It can be asserted that if this motion is made by a republican it will be done at a time when the republicans believe they have the votes to defeat the committee's proposition, and the motion will not be made until this vote is assured.

PHYSICIANS AND SURGEONS.

The Triennial Congress About to Begin in Washington.

WASHINGTON, May 29.—The present week will witness a noticeable gathering of medical men in this city, drawn here for the purpose of attending the triennial congress of American physicians and surgeons. TERMS:—One dollar per year, in advance.

Advertising rates furnished upon application.

FRIDAY, JUNE 1, 1894.

Democratic Ticket.

FOR CONGRESS,
ROLLA K. HART,
OF Fleming County.

Announcements for County offices, \$3. For other offices, from \$5 to \$10.

ANOUNCEMENTS.

COUNTY JUDGE.
Having been pressed to enter the race for County Judge I have decided to allow my name to be used in the Democratic primary election. I shall make no canvass, and am not a candidate in the usual sense, but if the Democrats see fit to nominate me I will accept and go into the fight to win.
WM. H. WOODS.

We are authorized to announce JOHN S. CHAFFIN as a candidate for County Judge, subject to the action of the Democratic primary election.
JAILER.

We are authorized to announce R. S. CHAFFIN as a candidate for the Democratic nomination for Jailer of Lawrence county.

We are authorized to announce SAMUEL LOWE, of Blaine, as a candidate for Jailer, subject to the action of the Democratic primary election.

We are authorized to announce CHRIS THOMPSON as a candidate for Jailer of Lawrence county, subject to the action of the Democratic primary election.

We are authorized to announce LARRY SIMPSON as a candidate for the nomination of Jailer of Lawrence County, subject to the action of the Democratic primary.

SURVEYOR.
We are authorized to announce JOHN J. MAHA as a candidate for Surveyor of Lawrence county, subject to the action of the Democratic primary election.

ATTORNEY.
We are authorized to announce TIP MOORE as a candidate for the nomination for County Attorney of Lawrence County, subject to the action of the Democratic primary.

We are authorized to announce G. W. SKAGGS as a candidate for County Attorney of Lawrence county, subject to the action of the Democratic primary.

CLERK.
We are authorized to announce ROBT. DIXON as a candidate for the office of County Clerk of Lawrence county, subject to the action of the Democratic primary.

MAGISTRATE.
We are authorized to announce HAN HINKLE, of Peach Orchard, as a candidate for Magistrate in Magistrate District No. 7, composed of Peach Orchard, Dobbins and Rock Castle precincts, subject to the Democratic primary.

We are authorized to announce A. J. CONLEY as a candidate for the Democratic nomination for Magistrate in the district composed of the two Louisville voting precincts.

Mike B. Thompson is a candidate for Magistrate in the district composed of Georges Creek and Little Blaine precincts, subject to the action of the Democratic primary.

The Kentucky Press Association will meet in Frankfort next Wednesday.

The French Republic has sued the World's Columbian Exposition for \$100,000 damages to goods injured during the fire in the Manufacturers building.

The Breckinridge element scored the first point in the Congressional contest in the Seventh district, by securing a decision to hold the primary election on September 15. The opposition wanted it earlier.

The almost universal strike of coal miners has been more serious than was expected. In conflicts between officers and striking miners who were attempting to prevent non-union miners from working, several lives have been lost. Also a number of non-union miners have been killed because they persisted in working. A settlement of the difficulties is, however, thought to be near at hand.

It is thought the tariff bill will pass the Senate about the 15th of this month. The McKinley tariff averages nearly sixty per cent, while the bill now pending reduces it to thirty-six and three-fourths percent. The Wilson bill as passed by the House averaged a little over 35 per cent. The reduction is claimed to be as heavy as can be made at present, owing to the very bad condition in which the Treasury was placed by the Republicans and the enormous expenses of them and which can not be suddenly reduced. A large revenue is necessary at present to save the country from absolute bankruptcy.

Absolute harmony in the Democratic ranks is necessary and desirable and we are glad to say that the prospects for harmony in the matter of nominations were better than for the primary election near at hand. There is yet time, however, for a change to be wrought in that condition provided any candidate or his friends should be so disposed.

It is sincerely hoped and strongly urged by those who have the interests of the party at heart, that no money or undue influence shall be brought into use in the primary. Let no candidate become so enthused as to lose sight of everything but the one object of securing the nomination. A spirit of fairness and submission should dominate every other feeling at all times. Do not set your heart so deeply upon the nomination that you can not readily submit to the verdict of your fellow Democrats, the majority of whom will this time be governed by what they believe to be the best interests of the party—disregarding their personal feelings. The sentiment among the leading Democrats is to oppose any candidate for whom money shall be used in securing a nomination, and it would therefore be suicidal to resort to such means. A quiet, honorable and manly course will be the surest to win in the primary election to be held on the 16th.

"I see by the press reports," remarked Representative Jason B. Brown this afternoon, "that my friend Tom Paynter is a candidate for Judge of the Court of Appeals in the Sixth Appellate district of Kentucky. I hope he will win, for he is deserving of recognition. For the past four years he has served with me on the Committee on Elections, and a good portion of the session while I was sick he acted as Chairman of the committee with marked ability. He has always made it a rule in considering contested election cases to go to the bottom of a case and examine in a thorough, judicial manner, never being influenced by politics. His reports and speeches have been of the highest legal order, and they have always been well received by the House."

Representative McCall, of Massachusetts, a Republican member of the committee, speaks in the same strain. Mr. Paynter has the good will and best wishes of every member of the House in his candidacy, for without exception they pronounce him eminently fitted for the bench.

Cough leads to Consumption, Kemp Balm stops the Cough at once.

PEACH ORCHARD.

U. S. Howell came up from Cincinnati and paid off the miners yesterday afternoon.

A. N. Kilpatrick, from the Indiana Territory, is here looking for miners. We understand that about 25 will go from here.

W. H. Keys, was in Ashland, and E. F. Garret in Cincinnati last week.

Mrs. Jesse Childers and children are visiting home folks at Kilgore, Ky.

It is reported that there are 3 cases of scarlet fever in town.

Dr. C. C. Shattuck, has been suffering from a severe attack of asthma, but we are pleased to say he is some better now.

I. W. W. F.

Lanes Medicine Moves the Bowels Each Day. In order to be healthy this is necessary.

DWALE.

Capt. John Finlayson went to Pikeville on business last week.

Newton Fairchild, one of the Pikeville Normal students, is now with his sister, Mrs. Hatcher.

Last week as the steamer, Andy Hatcher, passed here, some of her passengers were drinking the stuff that creates trouble—and you bet they had it.

Miss Vice Davidson, of Prestonsburg, is visiting relatives at the mouth of Beaver.

Mr. J. A. Begley, of Langley, who has been attending the A. & M. College at Lexington, has returned.

The exhibition of the Pikeville Normal School was conducted with great propriety at the court house, Friday night. About 700 people witnessed the play, entitled, "Ten Nights in the Bar Room."

Miss Maud Clark, of Beaver, was here last week.

E. K. May visited Hatcher Bros. store Monday.

Success to the News and its readers is the wish of R. O. Y.

Dr. M. J. Davis is a prominent physician of Lewis county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty years. On the 25th of May while in Des Moines, en route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's colic, cholera and diarrhoea remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce a diarrhoea. Every one should procure a bottle of this remedy before leaving home. For sale by A. M. Hughes, Louisville, Ky.

FARMERS AND MILLIONAIRES.

Remarkably Clear Views of a Lawrence County Farmer.

Ed. BIG SANDY NEWS.

The recent upheaval among the laboring classes is very suggestive at this stage of the political drama which has wrought itself into a tragedy. The mirth and song of the fifties and sixties have been changed to riots and bloodshed of the eighties and nineties. The calcium lights have been thrown upon the bulwarks of the Republican party, and this mysterious science of theirs is being laid bare to inspection. They have always contended, while advocating a high rate of taxes, that the wages of labor and good prices for farm products depended wholly upon this high rate of taxation of fatness of dividends upon manufacturing stocks. They say to the laborers—

—we look to the high tariff to sustain us, and we expect your votes that we may give you better wages. In other words, you poor hirelings are not capable of managing and taking care of yourselves, and you must have a self-constituted guardian. At the November election you vote these high taxes and we will pay you for votes in big wages. Let's see whether these self-constituted guardians have kept faith with the country or not. Take the report of the commission appointed to investigate the effect of the McKinley tax law upon the price of labor. Mr. Aldrich, the Republican Senator from R. I., I think, was chairman; and they report the startling fact that the effect of the McKinley law had advanced labor one sixth of one per cent. during the first 12 months. Let us now stop and calculate upon the result. Let's take as a basis the man who is earning \$1 per day or \$6 per week. One per cent of \$6 equals .06c one sixth of this would equal 1c. At the end of six days he has then \$6.01. He goes to the store on Saturday night and lays this out in general merchandise to support his family. Under the McKinley tax law he pays 52% taxes on these goods. 52% of \$6 is \$3.12. Then for the privilege of earning one cent extra per week you pay \$3.12. Is this business and will we longer submit to it? The defendants of this country have been led to the slaughter for the past twenty years by thus promising a thing that was never intended to be made good. Taxes have been growing higher since the days of R. J. Walker, and wages and farm products correspondingly lower. The facts are that after thirty odd years of Republican management, it will take more of the products of the farm and days labor to pay the national debt than it would have taken at the close of the war. Did it ever occur to you, my reader, that (unless brought from a foreign country) there is not a dollar of wealth in this whole country today, that is not a product of the soil or earth? The farmers have in the main produced the wealth of the country—why has legislation of the past few years been such as to rid them of the whole of it. I would that some conscientious Republican farmer would answer this. Through this mysterious science the Republican party has enabled corporations and factories to grow rich, build up monopolies, reduce wages, until the labor of the country is organizing and striking, trying to force these men to redeem their pledge made before the election. Look at the coal-strike example. The McKinley Congress fixed an import tax on coal of 75c per ton that the coal digger might receive from \$1.35 to \$2 per day for his dangerous employment. Instead of getting the benefit of the 25c per ton that was promised them, they got 20, 30 and in no place over 60c per ton for soft coal.

And now, after all this greed is shown in a degree ten times worse than the worst of the whole, by their frantic efforts to defeat a pitiful 2% tax on incomes over \$4,000. Why my friends, it is a part of wisdom and justice that the wealth of the country (that we farmers have produced under a scorching sun and that has under pretext of law been confiscated and delivered to a favored class) should contribute to the support of the Government. Wealth is as much the subject of protection as the life of our citizens and should therefore bear its due proportion of the burdens of the country. As taxes now stand, George Gould with his millions, who wears no better clothes and sits down to no better table than many citizens of Lawrence county, and therefore pays no more taxes. This my friends is claimed by our Republican friends as equal taxation. Capital that claims, and receives greater safe guards than any other interest under Republican management, contributes not a cent toward the support of the Government.

The operative, whose sweat, blood and sinews are his capital stock, are laid under contribution every moment of his life. A man's labor is his capital, just as much as Vanderbilt's railroads are to him. The \$6 the toll: earns per week is

just as much a dividend earned upon his capital invested as Mr. Sherman's dividend upon his mysteriously gotten bank stock.

It is a distinction without a difference. Then where is the justice in taxing the farmer and laborer upon almost everything he eats, drinks and wears, and allowing the man who makes \$20,000 per day or \$120,000 per week to pay no more than the man that earns \$6 per week. Strange justice this Republican party has pumped in upon a free people. Why is this? On what grounds can this gross inequality be justified? This my friends, is one of the principles of that party which believes in all work and no pay for the farmer and laborer. Republican justice this. There was a law taxing the wealth of the country prior to 1873, but a Republican Congress following the principles of their party in legislating against the poor and for the rich, repealed this law.

I quite understand the position of the farmers of Lawrence county. Few of them search the records or dive to the bottom for facts or opinions of their own. Most men are like sheep, follow a leader. Past conditions should not interfere with free thought. Men and parties change. Never mind being talked about. Look and act for your best interest. Your neighbor's interest. Look to the interest of the poor; as we farmers are styled. Stop harboring your deadliest enemy. Act with that party which is laboring to advance your interest. Flee from a Republican manager as you would a red-eyed mastiff. There is to us poison in their every breath. COAL BLAST. CAT RIDGE, KY.

The defeat of the ticket backed by Hon. "Morg" Thomas in the Republican primary in Lewis county to nominate candidates for county officers is creating much comment in that section of the State. It is heralded by those belonging to the other faction as a "dead-end," and they are loud in their claims that Gen. Thomas' grip has been effectually broken. It remains to be seen, however, whether such is the case. For years and years he has held the Republican party in the Ninth district in the hollow of his hand, and has absolutely dictated its policy and named its candidates.

Senator Pugh, who represented Mason and Lewis counties in the last General Assembly, is a son-in-law of Gen. Thomas, and the latter is very desirous of nominating him for Congress against Rolla Hart. The other faction, however, are determined to keep up the fight, and Mr. Thos. A. Davis, editor of the Maysville Ledger, will be a candidate for the Republican nomination. The fight will be a pretty one and will be watched with interest by the Democrats, who will rejoice no matter what the result is. It remains to be seen whether Gen. Thomas' hold is permanently broken or only a little bent.—Courier Journal.

In 1850 the per capita wealth in this country was \$308, and tramps were almost unknown. Today the wealth of the United States is more than \$1,000 per capita and the country is full of them. What does it mean? asks the New York World.

One might suppose, from the way in which such papers as the New York Press rave about the efforts of the South to destroy the wool industry of the North and West, that there was not a single sheep in the South. Only one State in the Union has many sheep as Texas, and that State is Ohio, while Kentucky has more than either Indiana, Illinois or Wisconsin. The South is as much interested in the protection of the sheep as any other section, but it would rather have a good dog-law than a protective tariff.—C. J.

GUARANTEED CURE.

We authorize our agent to struggle to sell you Dr. King's New Discovery for Consumption, coughs and colds, upon this condition. If you are afflicted with La Grippe and will use this remedy according to directions, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We make this offer because of the wonderful success of Dr. King's New Discovery. It never disappoints. Trial bottles free at A. M. Hughes' drug store. Large size, 50c, and \$1.00.

DEMOCRATIC PENSIONS.

Will Increase the Rates of the 1890 Law.

Senator Voorhes, one of the Democratic leaders in the Senate has introduced a bill providing that every pension granted to soldiers or their widows under the act of June 29, 1890, shall be raised to \$12 a month, and that no pension under said act shall be issued at a lower rate.

What will those howlers who are always preaching Democratic hospitality to pensioners say to this? Somehow they fail to mention any favorable action. But this is not surprising to those who know that the howling is all done to catch the votes of those pensioners who are thought to be too ignorant to learn the truth for themselves.

The story of the matador who was gored to death in a Madrid bull-fight Sunday is said to have been a "pathetic" one because he was nearly ready to retire from the ring and was engaged to be married. If his fate was pathetic, that of his sweetheart was fortunate. No brute who makes a business of bull-fighting destroys any sympathy when a bull succeeds in relieving the world of his existence. Hurrah for the bull!—C. J.

Ladies, Ministers

And Physicians

All Indorse the

Electropoise!

For Babies as Well as Old Folks.

I am glad to say that the Electropoise has cured me of rheumatism and illness, the result of typhoid fever, as well as catarrh. Have used it in the family from mother-in-law 73 years old down to the baby, used it on the baby while teething and it worked like a charm. For throat trouble we have never found anything to equal it. Several of my neighbors have them and are all well pleased. I can not say too much in praise of the Electropoise. Mrs. F. M. CALLAHAN, Vernonia, Ky.

Brain Congestion and Vertigo Cured with Electropoise.

Sirs: Last July I was taken with vertigo, a congestion of the smaller blood vessels of the brain (hyperaemia). I could not stand; everything I ate disagreed with me; at last I ate no solid food, but even soups and liquid food did not agree with me; I was induced to try the "Electropoise;" in one night's time it relieved the brain congestion and vertigo. I began the next day to study; I ate from that time what I pleased, and since then I have been a comparatively well man. REV. GEO. H. MEARS, Covington, Ky.

Practical as Well as Theoretical.

I am much pleased with my experience with the Electropoise, and believe it in advance of any known remedy in theory for the restoration of the normal condition of the system, and its effects in the cure of disease has proved its efficacy practically and theoretically.

ADDRESS

When you want a good price for your chickens and eggs, call on P. H. Vaughan.

Mrs. Wm. Hutchinson and son, of Catlettsburg, and Mrs. J. T. Haekworth and children, of Ashland, are visiting their parents, Mr. and Mrs. A. J. Eves, of this place.

We unintentionally failed last week to call attention in the usual manner to the announcement of L. T. Simpson for Jailer. He is an honorable, hard-working man and a sound Democrat.

The Democrats of this county know whom they will have to fight. Let them act with discretion in casting their votes, and so on in the interests of the party. Lay aside personalities, friendships and enmities.

Rev. Cox a few days ago received a message announcing the dangerous illness of his daughter in western Kentucky, and was preparing to leave for home when the intelligence came that she was decidedly improved, and he did not go.

Misses Neva Stewart, Phebe and Hermina Northup, and Willie Muncy, and Messrs. Sam Freese, Henry Snyder, George Carey and Lys Garred will be home from school within the next two weeks. Prof. Dick Johnson will also spend the vacation at home. Miss Phebe Northup and Mr. Lys Garred will graduate from their respective schools at their close in this month.

Confessed to Perjury.

In the United States Court last week Wm. Damron, of this place, confessed to the charge of perjury upon which he was arrested some time ago, and was sentenced to the penitentiary. The crime was committed in Commissioner Stewart's court at this place in a case against Lewis Tillman in which Damron was a witness. He is a brother of King Damron, who was sent to the penitentiary from this county last April.

Con Brady Killed.

An Irish pedler who formerly made Louisa his headquarters for two or three years, was murdered on the left fork of Twelve Pole, Wayne county, W. Va., a few days ago. There is no clue to the murderer, but it was evident that the object of the murder was robbery. He often carried a large amount of money. He was well known here as a liberal and good natured fellow.

Fourth of July.

The following committee will arrange a program for the Fourth of July Celebration and carry it into effect: Aug. Snyder, M. S. Burns, G. W. Gunnell, W. J. Vaughan and J. A. Shaanon. They will have full charge of the arrangements but would like to have the co-operation of all our citizens. It is the determination of the committee to have a substantial and highly interesting program. Let everybody help.

Base Ball.

The Ashland base ball team, composed of players from Ashland and neighboring towns came up last Saturday. The game was billed for 12:30, and about eleven o'clock one of the hardest rains of the season began to fall and lasted about an hour. This delayed the game and put the grounds in bad condition. The game was called at 1:30 and only five innings were played, the Ashland boys quitting to get ready for the train. The score stood 5 to 1 in Ashland's favor. Four of the Ashland's runs were made in the first inning and three of them resulted from wild throwing by Louisa players. The game will be returned soon on the Ashland grounds.

Hicks' June Weather.

From prophet Hicks' weather predictions for June we make the following extracts:

Up to the 6th a warm wave will prevail, interspersed with active storms. Cooler, fair weather will follow. About the 10th very warm weather will grow into a crisis, and active storms of lightning, thunder and rain will result. About the 11th is the electrical crisis of the summer solstice and many startling displays of lightning may be expected. Sudden thunder showers will probably be frequent up to the 20th. Some very warm weather will prevail between the 14th and 19th. Look for violent lightning and wind storms and heavy local rains. Rain, hail and lightning are probable on 20th and 21st. Much cooler weather is due about and after the 21st. About the 25th the temperature will reach oppressive warmth, culminate in dangerous storms the 26th, 27th and 28th, with sudden revulsions to much cooler. Heavy hail will result. June ends fair.

BUCHANAN

Married, Thursday May 24, at the residence of the bride's parents, Miss Lizzie Warren and Stanard S. Smith, Rev. W. H. Surgeon officiating. They left in a few minutes after the marriage for Cincinnati. The young couple have the best wishes of their many friends that their future may be happy and successful.

May Stump has returned home from Bolts Fork, where she has been attending school.

Mr. J. F. Hatten and wife were in Catlettsburg on business Tuesday.

The Kavanaugh Epworth League is progressing very nicely. We have at present fifty members.

Nannie Finney returned home Tuesday from Catlettsburg, where she has been visiting friends.

Mr. E. M. Smith, of Catalpa, Ky., was in our city Tuesday.

Mrs. Doc Kilgore, of Anderson, Ind., is visiting friends and relatives here.

Dr. A. P. Banfield left Tuesday for a short visit to Cincinnati.

The festival given last Thursday evening at Mr. Albert Stewart's was well attended, considering the inclemency of the weather.

REUN AOCT.

Dead Letter List.

The following is a list of unclaimed letters remaining in the Louisa postoffice June 1, 1894.

If not called for before July 1, they will be sent to the dead letter office. Please say advertised when calling for any of these letters:

Geo. Ball

W. A. Chapman & family

E. P. Good

J. C. Copley

Thos. C. Carter

G. A. Salmons

Chas. Spury

Mrs. Martha Goble

Miss Benda McDowell

D. C. O'Hara

S. W. Porter

Miss Sallie Johnson

Mrs. Julia Thompson

Asbury Thompson

James A. Miller

One cent due on each letter.

M. F. CONLEY, P. M.

When you want anything in their line don't forget to visit Borders & Stewart's before buying.

Floyd County.

PRESTONSBURG.

Conference begun here Thursday and lasted over Sunday. There was a large crowd in attendance day and night, and everybody seemed well pleased, and all had a good time. Bro. Rice and son from Lawrence county were here.

Bros. Robinson, Castle, and Preston, of Paintsville; Bro. Woodard, of Pikeville, and quite a number of others.

Mrs. D. M. Hager and daughter of Paintsville, visited here during Conference.

Bettie Mayo, of Alphoretta, is in town.

Sam Hatcher and wife, of Dwayne, spent Sunday here.

Miss Chattie Layne, of Layneville, is at "The Bonanza Hotel."

Julia Langley is here visiting friends.

Bro. McClung and wife are here spending a few days with Mrs. I Richmond.

Dr. Gardner, of John's creek, is in town.

Henry Fitzpatrick returned Saturday from Danville, Ky., where he has been attending school.

Tom Johns came home Monday from Winchester.

Thursday at 8 o'clock p. m., Joe M. Davidson and Anna Layne were married at the residence of the bride's parents, Bro. Hendricks, of Flemingsburg, officiating. The bride was attired in a lovely cream silk, and the groom looked handsome in the conventional black.

George Demick, Jr., is here for a few days.

Fannie Walsh, of West Liberty, is the guest of J. A. Davidson.

Agnes Auxier, of East Point, is visiting Sola May.

J. J. Burns and wife and M. T. Allen and wife went to Paintsville Monday on a pleasure trip.

Mrs. Josie Harkins is quite ill.

Lida Richmond gave the young folks a social Monday night. There were 12 couple and all say it was the affair of the season.

G. R. Davidson went to Dwayne on business Monday.

Mrs. E. H. Leete is on the sick list.

Mr. Gillespie and daughter, of Bonanza, Ky., visited Mr. Harmon Harris' family last week.

Adam Martin and wife are visiting friends and relatives on Beaver this week.

ONISCA.

A LONG TRAIN

of disease follows bad blood and inactive liver. Every one knows when their blood is impure and liver sluggish, pimples and boils appear, or they feel drowsy, weak, tired and thick-headed.

We want to teach you how to fight it. Begin in time. Plenty of fresh air, exercise, and Dr. J. C. Ayer's Golden Medical Discovery will bring you out of danger. The reason is simple. The blood and renders the liver active. As the blood enters the circulation, it carries the poisons of disease through the system. You can save yourself from Grip, Catarrh, Bronchitis, and all the diseases of prevention and cure by putting all the functions of the body in a healthy state, besides building up healthy flesh, by taking the "Discovery." Better than all the emulsions of Cod liver oil which get on fat, but not wholesome flesh. G. M. D. is guaranteed to benefit or cure all blood disorders, or money refunded.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

A "BLIND TIGER" CONVENTION.

The Republican Pow-wow of Last Tuesday.

In referring in the above manner to the Republican meeting which was held at this place last Tuesday for the purpose of nominating candidates for the county offices we do not do so in a spirit of ridicule, but are only quoting from many of the Republicans, who named it a "Blind Tiger Convention."

The masses of the party were not allowed to vote. The nominations were made by forty-eight Republicans, three from each precinct, selected by a committee of three—this committee having been named by the county executive committee last March. It was intended to keep the names of the nominating committee secret until a very short time before action, but it seems that the names of most of them became public some time ago.

The delegates, candidates and a large number of spectators gathered at the court house at ten o'clock. The delegates assembled inside the bar and an organization was effected, after which an adjournment to 12:30 o'clock was agreed to.

It was decided to vote by ballot and to allow a brief speech to accompany each nomination. 24 votes were declared to be necessary to election, only 47 delegates being present.

For County Judge the names of Frank Jones, R. C. McClure, Dr. H. W. Sparks, B. F. Morris and R. H. Meek were presented. Wm. Savage saw that he was not in it and withdrew from the race. The first ballot showed 24 votes for McClure, 21 for Sparks, and 2 for Morris, leaving none for the others. The result was somewhat of a surprise to those not on the inside of things, as Dr. Sparks was considered the strongest candidate and the general opinion was that he would be nominated. But it seems that a deal between the McClure and the James Cooksey elements at a late hour changed the situation considerably and pulled both of them through. Cooksey was a candidate against Thos. Austin for County Clerk.

For Sheriff the contest was between Jas. Prince, J. H. Sturgill and James Boggs. The latter won. Thos. Carter, Jas. Young, Mont Bolt, Garfield Moore, Chas. Salvers, Henry Edwards, Oscar Heberlein and Frank Damron were put in nomination for Jailer, and Bolt won on the second ballot.

The candidates for Assessor were Thos. Bellomy, J. K. Chadwick, U. S. Burton, Charley Roberts and John H. Carnutte. Roberts was nominated.

Chas. Smith was nominated for Surveyor and Moses Hickman for Coroner.

SNAP SHOTS.

Major Burchett make a good presiding officer.

Bro. Holton, the secretary, spoke his little speech quite effectively. He is casting an anchor to windward.

One of the many orators of the day had much to say concerning the "loyalty" of his nominee. He had been loyal to his party, loyal to his State and, above all, loyal to his government. This must have been rather "hash" talk for Jim Boggs to hear. He is the nominee for Sheriff, and is an ex-confederate soldier.

Did you ever see an advertisement of misfit clothing? Well, Bro. James Abbott was in the misfit business last Tuesday. He made a fourth of July, star spangled banner sermon-speech, putting a man in nomination, and then an entirely different individual.

One individual, not a delegate, must have thought he was addressing a church meeting, for he repeatedly spoke of the crowd as a "congregation." The same man wanted the delegates to meet in secret session. This suggestion was howled down.

"They eat pap's grub but they didn't vote for him." Daisy J.

Judging from the eulogistic, sky-rockety, he-is-better-than-anybody-else speeches made last Tuesday every candidate before the convention was fit either to be President of the United States or Bishop of the Church.

What are the bloody shirt wavers going to do about one-armed Jim Boggs? He is one of those fellows who fit, bled and died on the other side.

Bolt. Is the name suggestive of anything ominous? Bolting a convention, for instance?

There was not fire enough to keep the Sparks firing. The flue had too many Crooks in it.

Meek and Jones will have to run over again.

Brethren Atkins and Elam were heard from once or twice.

There were a few fine, strong wires leading to the outside, and they were pulled just at the right time.

That "town clique" was in it this

time, sure.

"He asked for a patron saint for the lawyers. The Pope told him to be blindfolded and kneel before an image and the saint thus indicated should be the patron of the legal fraternity. He knelt, and when the bandage was taken from his eyes he beheld the devil, the man I am going to nominate—Milt Burns."

OUR NEIGHBORS.

Ashland property for which a land company paid \$54,000 during the boom in that place was sold last week for \$11,335.

The Twelve Pole Monitor has had enough of circuses. It says: "The circus has come and gone and we hope to stay away forever. Never do we wish to witness just such another scene as was witnessed here last Tuesday. Substantial men of the county permitted themselves to get over-excited and entered into a regular street brawl which at one time was very threatening. The police force were powerless or made itself powerless by failing to go in and stop the affair and, strange to say, not a county official, except those Constables who had been sworn in as special policemen, made any effort to assist the Mayor in securing order."

Already the questions for the June examination are being circulated in this county. A young man apparently from Greenupsburg passed through here last Monday scattering as many as he could at \$10 a cut. Now it is more than likely that this man will be caught up, for they are after him. His fine will be \$50, and of course he will tell every one that has bought of him. Your fine will be the same and your certificate revoked forever.—Paintsville Times.

The nip of a poisonous snake is but a slight remove from being more dangerous than the poison of Scrofula in the blood. Ayer's Sarsaparilla purifies the vital fluid, expels all poisonous substances, and supplies the elements of life, health, and strength.

If you desire a beautiful complexion, absolutely free from pimples and blotches, purify your blood by the use of Ayer's Sarsaparilla. Remove the cause of these disfigurements and the skin will take care of itself. Be sure you get Ayer's Sarsaparilla.

ADAMS.

At last the snow is gone, winter is past and singing of birds is heard in the forest and the indications are that palm leaves will come in good play soon.

Jas. Carnutte was seen on our streets with his usual smile.

Lute Haws has returned home from Louisa, where he has been attending school.

Sam Berry is making preparations to start to Egypt soon. He prophesies a famine, and great pestilence in this neighborhood.

The wife of Rev. Fraley is sick at this writing.

Mrs. Ella Carter is visiting her mother.

Our Sunday School is progressing fine. Large attendance.

J. Monk Ball is paying home folks a visit on Little Blaine at this writing.

Success to the News is the wish of

J. J. W.

Attention

In time to any irregularity of the stomach, Liver, or Bowels may prevent serious consequences. Indigestion, headache, nausea, biliousness, and vertigo indicate certain functional derangements, the best remedy for which is Ayer's Pills. Purely vegetable, sugar-coated, easy to take and quick to assimilate, this is the ideal family medicine—the most popular, safe, and useful aperient in pharmacy. Mrs. M. A. BROCKWELL, Harris, Tenn., says:

"Ayer's Cathartic Pills cured me of sick headache and my husband of neuralgia. We think there is

No Better Medicine, and have induced many to use it."

"Thirty-five years ago this Spring, I was run down by hard work and a succession of colds, which made me so feeble that it was an effort for me to walk. I consulted the doctors, but kept sinking lower until I had given up all hope of ever being better. Happening to be in a store, one day, where medicines were sold, the proprietor noticed my weak and sickly appearance, and after a few questions as to my health, recommended me to try Ayer's Pills. I had little faith in these or any other medicine, but concluded, at last, to take his advice and try a box. Before I had used them all, I was very much better, and two boxes cured me. I am now 30 years old, but I believe that if it had not been for Ayer's Pills, I should have been in my grave long ago. I buy 6 boxes every year, which make 24 boxes up to this time, and I could not more be without them than without bread."—H. H. Ingraham, Rockland, Me.
